

## PRODUCT DATA SHEET

# ENZYME BOOSTER (LIQUID)

**DESCRIPTION:**

Enzyme Booster is formulated as a stabilized enzyme concentrate for the purpose of quickly and efficiently breaking down a variety of organic materials. The enzymes specifically target and catalyze the breakdown of large particles of proteins, fats, oils, and starches. The power of Enzyme Booster blended with products from our range enhances the efficacy and speed at which they work.

**CHARACTERISTICS:**

Enzyme Content	protease, alpha-amylase, lipase
Odour	Mild-earthly
Effective PH. Range	5.0 - 10
Effective Temperature Range	5 - 50°C
Shelf Life	24 Months

**APPLICATIONS:**

Boosts standard products where necessary in extreme cases.

**BENEFITS:**

Improves the efficacy and speed at which products work in extreme cases.
