

PRODUCT DATA SHEET

PET ODOUR CONTROL

DESCRIPTION:

Pet Odour Control is a highly effective biological product that degrades the source of the odours, not just masking them. The product is a special formulation that when applied, binds the odour molecules to degrade them. These molecules are then converted into carbon dioxide and water.

Pet Odour Control also contains Eucalyptus Citriodora, a 100% pure essential oil extract. Eucalyptus Citriodora contains the pure form of citronella, which acts as an effective pest repellent.

CHARACTERISTICS:

Bacteria Type:	5 x Bacillus and 5 x enzyme blend
Total bacterial count:	17.9 million cfu's/ml
Appearance:	Clear
Form:	Liquid
Odour:	Citronella
pH:	7 - 8
Shelf life:	24 months

APPLICATIONS:

Automobile interiors
 Pet blankets
 Pet boxes and sleeping areas
 Refuse collection areas
 Animal cages and pens

BENEFITS:

Non-resoiling action designed for pet bedding, carpets and indoor use.
 Eliminates the source of the odour instead of masking it.
 Converts the organics to carbon dioxide and water.
 An effective pest repellent.
